Amanda Brousson Zabaleta
Front- End Developer

Buenos Aires, Argentina | +5491132474191 | amanda.brousson@gmail.com

Linkedin: www.linkedin.com/in/amandabrousson/ | Github: www.github.com/amandabrousson

Full Stack Developer with experience in frontend project development. I have strong skills in teamwork, UX/UI, layout design, Git, data structures, algorithms, and CSS frameworks. Competent in problem-solving, collaboration, adaptability, and attention to detail.

PROJECTS

- **Personal Presentation - Henry Bootcamp**

A personal presentation website featuring mandatory input fields.
Main technologies used: JavaScript, HTML, CSS.

- **Movie Application - Henry Bootcamp**

A full-stack web application with a backend connected to a database and a frontend consuming data from the server. Users can view a movie catalog and add new options, which are saved in the database.
Main technologies used: Node.js, Jest, AJAX, Database.

- **Appointment Manager - SoyHenry Bootcamp**

A full-stack Single Page Application (SPA) with an HTTP server for managing appointments from a database. Users can book and cancel appointments.
Main technologies used: React, TypeScript, TypeORM, SQL.

- **E-commerce - Henry Bootcamp**

A full-stack web application with an existing backend and a subsequently developed frontend for a tech product e-commerce platform. Users can purchase products and view their purchase history.
Main technologies used: Next.js, Tailwind, Microfrontend.

- **Event Manager – Henry Bootcamp**

A full-stack web application offering culinary event sales. Users are redirected to a payment platform, and after a successful purchase, the information is stored in their profiles. Administrators can manage events, create, edit, and delete them, and view metrics.
Main technologies used: Next.js, Tailwind CSS, TypeScript, NestJS, Cloudinary.
